**Clause 2: Compensation for delay**

The time allowed for carrying out the work, as entered in the tender, shall be strictly observed by the Contractor and shall be reckoned from the 10th day after the date of written order to commence the work given to the Contractor. If the contractor does not commence the work within the period specified in the work order, he shall stand liable for the forfeiture of the amount of Earnest Money, Security Deposit. 1. Compensation payable by the contractor for delay attributable to contractor at the stage of:

Delay upto one fourth period of the prescribed time span - 2.5% of the work remained unexecuted.

Delay exceeding one fourth period but not exceeding half of the prescribed time span - 5% of the work remained unexecuted.

Delay exceeding half of the prescribed but not exceeding three fourth of the time span - 7.5% of the work remained unexecuted.

Delay exceeding three fourth of the prescribed time span - 10% of the work remained unexecuted.

Note: In case delayed period over a particular span is split up and is jointly attributable to Government and contractor, the competent authority may reduce the compensation in proportion of delay attributable to Government over entire delayed period over that span after clubbing up the split delays attributable to Government and this reduced compensation would be applicable over the entire delayed period without paying any escalation.

Following illustrations is given:

(i) First time span is of 6 months, delay is of 30 days which is split over as under:

5 days (attributable to government) + 5 days (attributable to contractor) + 5 days (attributable to government) + 5 days (attributable to contractor) + 5 days (attributable to government) + 5 days (attributable to contractor)

Total delay is thus clubbed to 15 days (attributable to government and 15 days (attributable to contractor).

Total normal compensation of 30 days as per clause 2 of agreement is 2.5% which can be reduced as 2.5* 15/30= 1.25% over 30 days without any escalation by competent authority.

Note: The compensation, levied as above, shall be recoverable from the Running Account Bill to be paid immediately after the concerned time span. Total compensation for delays shall not exceed 10 percent of the total value of the work.

The contractor shall, further, be bound to carry out the work in accordance with the date and quantity entered in the progress statement attached to the tender.

In case the delay is attributable to the contractor, the spanwise compensation, as laid down in this clause shall be mandatory. However, in case the slow progress in one time span is covered up within original stipulated period, then the amount of such compensation levied earlier shall be refunded. The Price escalation, if any, admissible under clause 45 of Conditions of Contract would be admissible only on such rates and cost of work, as would be admissible if work would have been carried out in that particular time span. The Engineer-in-charge shall review the progress achieved in every time span, and grant stagewise extension in case of slow progress with compensation, if the delay is attributable to contractor, otherwise without compensation.

However, if for any special job, a time schedule has been submitted by the Contractor before execution of the agreement, and it is entered in agreement as well as same has been accepted by the Engineer-in-charge, the Contractor shall complete the work within the said time schedule. In the event of the Contractor failing to comply with this conditions, he shall be liable to pay compensation as prescribed in forgoing paragraph of this clause provided that the entire amount of compensation to be levied under the provisions of this Clause shall not exceed 10% of the value of the contract. While granting extension in time attributable to the Government, reasons shall be recorded for each delay.

APPENDIX XII
(See Rules 636 and 637)

Detailed procedure to be followed by the P.W. Divisions (within the Jurisdiction of
the same Accountant General, for the settlement of Inter-divisional transactions by
Cheques/Bank Drafts. (The forms mentioned below are those appended to this
Appendix)

1 - Originating Debits : (In force upto .................)

(1) Action in the Division in which the transaction takes place :

All transactions relating to services rendered or supplies made by the Division, should
be classified under the Head "8658-Suspense Account-Cash Settlement Suspense
Account". These transactions, as and when they take place (at the end of the month in
the case of Stock transactions), should be posted in a "Division wise Register of
Transactions Adjusted" under the Head "Cash Settlement Suspense Account" in
Form-I. On closing the monthly accounts of the Division, a copy of Part I of Form I
(which will have inter-leaved perforated copies to be posted by carbon process)
should be sent to the Division concerned supported by all relevant vouchers (except
those for work done see Rule 642 (b)) and the receipt of the Cheque/Bank Draft
should be watched through the Register referred to above. The Cheque/Bank Draft,
when received, should be entered on the receipt side of the cash book of the Division,
the entry being classified as Minus Debit to the Head "Cash Settlement Suspense
Account" thus clearing the original debit under this head and deposited into
Treasuries. In the Divisional Cash Book the remittance of Cheque/Bank Draft into the
Treasury will be charged off as a Debit under "P.W. Remittances-I-Remittances into
Treasuries."

(2) Action in the responding Division :

Immediately on receipt of the copy of Form I from the originating Division, the
responding Division should check that the connected vouchers (except those for work
done) have been duly received. The same should, then, be entered in the "Register of
Claims Received" in Form 3 and urgent arrangement made to obtain and send the
Cheque or Bank Draft with a distinct marking "Payment by Book Adjustment only"
alongwith a forwarding letter in Form 4. On the cheque being issued, the entry will
appear on the payment side of the Divisional Cash Book as Debit to the Head "8658-
Suspense Accounts-Material Purchase Settlement Suspense Account (in the case of
stores received), thus clearing the original Minus Debit afforded to this head on
receipt of the stores by debit to "Stock" or "Work" concerned, as the case may be.

It should be ensured that the dispatch of the Cheque/Bank Draft is not delayed beyond
ten days of the receipt of the account. For this purpose, the Divisional Officer should
arrange to have the detailed verification of the claim completed well within this
period. In order to ensure smooth working all around, the Cheque Bank Draft should
always be for the full amount claimed by the Division. In case where some mistake in
calculation etc. is detected in the course of check of the Account or an item clearly
pertaining to another Division has been wrongly included in the Account, the
Cheque/Bank Draft should be sent for the full amount and the discrepancies should be
simultaneously pointed out to the originating Division. Such items should be redecoded to the Division concerned by including them in the next monthly account to be sent to the latter along with the supporting vouchers, if any.

Note-1 In cases where payments are to be made at a treasury with which the Division is not in account, the settlement should be made by Bank Draft.

Note-2 Since the facility of cash settlement will be available to both the parties to a transaction, the Divisional Officer, to whom the supplies are made or on whose behalf the services are rendered, will make payments only on receipt of a claim from the other Division. In other words, the Divisional Officers will not be responsible for the settlement of both outward and inward claims (i.e., net amount of credit and debit transactions).

(3) Clearance of the balance under Cash Settlement Suspense Account:

The transactions under this "Suspense" Head should be abstracted in part II of the Division-wise Register (Form 1) and the figures of monthly debits and credits agreed with those shown in the Monthly Account. At the close of the year, there should normally be no balance under this "Suspense" head. With this object in view, a vigilant watch should be kept over the outstanding towards the close of the year and steps taken to have such transactions settled by the 31st March. The Register should be reviewed by the Divisional Officer monthly with a view to see that the settlements are not unduly delayed.

In order to ensure that the outstanding at the close of the year are reduced to the minimum, the transactions occurring in March may be settled in stages as indicated below:

| (a) | Transactions taking place during the period from 1st to 15th March. | Claims to be preferred before 20th March |
| (b) | Transactions taking place during the period from 16th to 23rd March. | Claims to be preferred before 25th March |

Note: Though the stock accounts are normally closed at the end of the month, the Abstracts of stock Receipts and Issues may be prepared and closed in stages so as to ensure that the stock transactions pertaining to March are also settled in stages as indicated above.

(4) Review of Registers:

The Division-wise Register of transactions adjusted under the head "Cash Settlement Suspense Account" and the Register of claim Received, should be submitted to the Divisional Officer monthly to enable him to see that

(a) The Registers are properly maintained.
(b) There are no inward claims outstanding for more than 10 days without sufficient reasons, and
(c) Prompt action is taken by the office to send the outward claims.
II. Settlement of Inter-Divisional transactions Consequent on Advance payments by Cheque/Bank Drafts by Indenting Divisions
(See Rule 637)

With effect from all inter-divisional transactions on account of stores supplied, services rendered or works executed, the system of advance payment by the Indenting Division will be followed subject to the observance of the following procedure:

(1) The Divisions which want the stores supplied, services to be rendered or works to be executed, after obtaining the proforma invoice for supply of stores/rendering of services, etc. will be required to make advance payment. The expenditure will be debited by the said Division under a new Sub-Head "Stores/Services Advance" under the Minor Head "Suspense" or Sub-Head "Works" below Revenue or Capital Major Heads concerned by nationally reducing the budget provision to the extent of advance payment. Such advance payments made to other Divisions will not be mixed up with advance payments to the Contractors/Suppliers.

(2) Supplying Division, on receipt of the Cheque/Bank Draft, should Minus Debit the same under a new sub-head "Stores/Services Rendered", under the same Minor Head "999- Suspense" below the relevant Major Head "2059-Public Works", or "2213-Water Supply and Sanitation", or "2701-Major and Medium Irrigation", "2054-Roads & Bridges" etc., as the case may be. After actual delivery of the Stores or completion of work, Sub-Head "Stores/Services Rendered" will be debited by credit to Stock or the other head concerned, as the case may be. Excess deposit, if any, will be refunded, before the close of the financial year.

(3) The invoice-cum-bill, received from the Supplying Division, should be adjusted in the same month by the Indenting Division debiting the value of the bill to "Stock" or "Works", as the case may be, with a corresponding Minus Debit to Sub-Head "Stores/Services Advance" under the head of account to which the same stands debited originally, thus clearing that Sub-Head to that extent.

(4) Since advance payment, contemplated above, will have no separate Budget provision, it should be ensured by Divisions involved that such transactions are settled within the same financial year.

(5) By application of this accounting procedure, the operation of Suspense Heads "Cash Settlement Suspense Account" and "Material Purchase Settlement Suspense Account" will be dispensed with.

(6) Accounting Procedure for clearance of old balances under "Material Purchase Settlement Suspense Account", and "Cash Settlement Suspense Account" as on 31.3.1997 will remain unchanged.

(Authority Para 4 B of F. 18(4)92/TA/237 dated 16-3-93, followed by O.M.No. 16(4)92/TA/169 dated 23-3-94 from the controller General of Accounts, Department of Expenditure, Ministry of Finance, Government of India).

III - Originating Credits

(1) Action in the originating Divisions: All transactions involving payments on account of cash recoveries etc. made by one Division on behalf of another Division will be accounted for initially under the head "P.W. Deposits-Miscellaneous Deposits"
pending settlement in cash. The details of such transactions will be simultaneously posted in a register (Form-2). At the end of the month, a Cheque/Bank Draft will be drawn for the amount due and sent to Division concerned alongwith a copy of Form 2, which will have interleaved perforated copies to be posted by carbon process. On the cheque being issued, the entry will appear on the payment side of the Divisional Cash Book as debit to "P.W. Deposits", thus clearing the original credit to this head.

(2) **Action in the Responding Division**: The Cheque/Bank Draft, when received in a Division, will be credited to the appropriated Head/Work in the Divisional Cash Book and sent to the treasury for making necessary adjustments on the lines indicated in paragraph I (1) above.
